MEMORANDUM FOR: Post Office Box File

25X1A

Material was sent to the P. O. Box address by [REDACTED] but he added the name of the undersigned on the envelope in addition to the address. This was called to the attention of [REDACTED] for his advice regarding compromise and continued use of the box. He did not feel that this jeopardized the further use of the box but suggested that the various correspondents employ the address without personal names of any member of this office appearing on the envelope. This will, of course, be done.
